

ASDAN

CURRICULUM INTENT

ASDAN supports our KS3 pupils to re-engage with learning through a more practical curriculum whilst providing pupils opportunities to develop their personal, social and work-related skills. We want pupils to recognise and celebrate their own personal qualities and abilities whilst fostering confidence in trying new activities. The flexibility of the units lends itself to pupils who are with us on intervention too and they can return to their home school with a recognised qualification, helping to build their self-esteem and resilience with tangible success that can be celebrated.

INTEGRITY

Pupils are encouraged to reflect on their choices and activities so that they can set themselves challenging, but achievable goals.

RESPECT

Where possible, pupils experience a learning environment outside of the classroom and outside of the school where they must learn to demonstrate appropriate behaviour in public.

RESILIENCE

ASDAN topics are all about personal challenge and learning to work with people that you might not immediately 'click with'.
